

## **forProject Technology and Encore Analytics Form Technology Partnership - Proven Product Integration via UN/CEFACT XML Formats 1-7**

*forProject and Encore Analytics announced today an interface between EVMS forProject and Encore Empower to provide advanced earned value analytics to mutual customers. In addition, the companies have entered into a technology partnership to ensure the interface is maintained as the respective tools evolve, and have identified additional integration opportunities that will be delivered over the next six months.*

Tacoma, WA ([PRWEB](#)) November 03, 2014 -- forProject and Encore Analytics announced today an interface between EVMS forProject and Encore Empower to provide advanced earned value analytics to mutual customers. In addition, the companies have entered into a technology partnership to ensure the interface is maintained as the respective tools evolve, and have identified additional integration opportunities that will be delivered over the next six months.

“forProject has a compelling solution for organizations that use Microsoft Project and want to add earned value management to their project management tool set,” said Gary Troop, President, Encore Analytics LLC. “We have fully tested the EVMS forProject IPMR UN/CEFACT Formats 1-7 export and import into Empower, and it is seamless.”

“We are extremely pleased to provide the advanced earned value and schedule analytics available in Encore Empower to users of EVMS forProject,” said Glenn Gallop, President of forProject Technology. “We see additional opportunities to enhance the integration with Empower and look forward to our continued collaboration.”

### About Encore Analytics, LLC

Encore Analytics is the leading supplier of analytical tools for programs that utilize earned value management techniques to plan and control projects. Customers include government agencies and contractors who procure and/or execute large, complex projects. Encore’s Empower product is compatible with a host of earned value and schedule management tools.

### About forProject Technology, Inc.

forProject Technology is an emerging leader in earned value management and schedule analysis tools to support both Government and Commercial customers. The EVMS forProject software is closely integrated with Microsoft Project, Project Server and SharePoint and provides an economical, configurable solution for Earned Value Management.

Empower is a registered trademark of Encore Analytics, LLC. forProject Technology and EVMS forProject are either registered trademarks or trademarks of forProject Technology, Inc. in the United States and/or other countries. The names of actual companies and other products mentioned herein may be the trademarks of their respective owners.
